For 2021 all Members are required to be on EZ_PAY or have a Credit Card/ACH on File

FAQ's

- 1. Is a cart included in my membership?** Technically no, rather your membership includes a “seat” in the cart. This means that if you have a guest or non-member riding with you, they are to pay ½ of the cart fee. This is not a new concept and is the standard practice at all golf courses private or public.
- 2. If I own my own cart and have a guest are they to pay ½ the cart fee cost?** Yes, they are a guest and are to be charged for all products and services that all guest are expected to pay for.
- 3. If I own my own cart is there a storage fee at the club?** Yes. The cost covers such things such as electricity, shed maintenance, and the convenience of having your cart stored at the club.
- 4. If I own my own cart but live close enough to drive it to the course or trailer my cart to the course, is there a trail fee?** No. Since a “seat “ in a cart is part of your membership, there is no additional fees.
- 5. If I pay my membership in full do I receive a discount?** No. You may pay in full but there is not a discount. Simply stated, we are a seasonal course with costs that occur in our off-season as well (loan payments, electricity, salaries, insurance, etc.) meaning we need cash flow 12 months out of the year. We prefer that all members pay month to month to help the cash flow at the BCC.
- 6. Do I need a credit card or bank account on file to “member charge” at the BCC.** Yes. You may pay in cash, check, or credit/debit card at the end of your day at the BCC or you may charge it and pay in full before the month end statements come out. However, if at the end of the month there is an outstanding balance on your account, your bank card or credit card will be charged. We are not a bank and are unable to cash flow properly if members do not pay in a timely manner.
- 7. What if I do not or am unwilling to have a card/account on file?** You will be on a cash basis only for every transaction throughout your stay at the BCC and will not be able to charge on your account not even throughout the day. It is impossible for staff to know what your charges are for the day and should not be expected to keep track of your spending while you are at the BCC.
- 8. If I leave the BCC for a year or two and my initiation fee is PIF and I decide to come back am I still expected to pay the new initiation fee?** Yes. There has been much discussion over the past 3 years or so regarding this subject. It has been said to the BOD that there were “certificates” and lifetime memberships given years ago. To date we have never been given or seen any such documentation that supports this as fact. It may have been conveyed that way but until and unless we can find actual proof of that, the policy stands. EVERY private club that requires an initiation fee has this policy in place. It is VITAL that the member is vested in the club. We are a private entity that survives solely on our member generated revenue and when we have turnover it simply costs the club money that takes away from operational and capital funding. However, it is understood that there are times in life that unforeseen circumstances arise. The board will review these sorts of situations on a case by case basis.
- 9. Can Gift Cards be used in the restaurant?** Yes. IF they were purchased from the restaurant for that purpose.
- 10. If I win a giveaway or place in a tournament and receive a GC, can I use the GC in the restaurant?** Only if it is designated for the restaurant. The majority of gift cards won in a tournament, or giveaway will be designated for the proshop. The proshop is expensive to stock in any meaningful fashion as far as having a complete offering of clothing, clubs, balls, and tees, gloves, shoes, etc. From a private club standpoint, we must drive business through that profit center so as to support it profitably. This is the standard practice at the vast majority of private clubs as well as public courses that stock merchandise.

FAQ's Continued...

11. **Are there food and beverage minimums for members at the BCC?** Yes we have instituted F&B minimums to begin in May of this year and the minimums are outlined in the business plan.

12. **Why do we have a F&B minimum?** It is extremely important that in a seasonal climate like SD where the course is not fully operational 12 months of the year, and the fact that we will open the restaurant year round, we need to ensure that we drive business to the BCC restaurant. It is a matter of cash flow and profitability in order to sustain the culture and services that our members want and deserve. This is a common practice at many private clubs around the entire country. We hope all of our members recognize that this is for support of the club in its entirety not a way to simply get more money from our members. There will be many creative ways the management of the BCC will provide our members to make it simple to meet the minimum.

13. **If we go south for an extended period of time in the winter for instance are we required to pay the F&B minimum?** Yes. We need year round support of the restaurant to maintain its profitability. Although we recognize the situation, it is the choice of the member to leave for that time and as stated before, the BCC incurs costs 12 months out of the year. Again, we hope all of our members recognize that this is for support of the club in its entirety not a way to simply get more money from our members. There will be many creative ways the management of the BCC will provide our members to make it simple to meet the minimum.

Sincerely,

The BCC BOD and staff
